## SUMMARY

I can work both front-end and back-end work. Not only feature writing, but also database work or webpage design are good for me. And I think, the best skill I have got is searching the solution by internet, even some works are difficult to me, I can try to find help online. In addition, previous work experience I worked in multi-culture work environment that I was used to work with others. And work did not means that my study-life is end, I will keep study the new tech languages and frameworks to prepare to face more challenges in the future.
